Portfolio Instructions

1. The portfolio is one group repository on GitHub. All group members must be added as collaborators.
2. In your portfolio, you will include your homework: A report in a markdown file, the respective Jupyter Notebook, and additional material.
3. The name of your portfolio or repository must be:
ASDA_2025_Group_X_Porfolio
4. From now on, the homework is in groups. After each exercise, we will give you homework.
5. The homework should be ready before the lecture. Henrik will be reviewing, discussing your homework and providing general feedback during the lecture.
6. In December we will review your portfolio and it will count as the first element of your grade (Knowledge base 1, 33%).
7. In February we will review your whole portfolio and it will count as the second element of your grade (Knowledge base 2, 33%).
8. Structure of the Portfolio:

```
YOUR_PORTFOLIO/
├────── reports/
├────── notebooks/
├────── scripts/
├────── additional_material/
├────── .gitignore
└────── README.md
```

For all the files in the in reports, notebooks and scripts (if used) directories, please name the files as follows:

For reports
    week_02_group_4_report.md
    week_08_group_3_report.md
For notebooks
    week_11_group_5_notebook.ipynb
    week_05_group_2_notebook.ipynb

Please stick to the labelling.

We will give you guidance over the session about the structure of the reports and notebooks
